

Eubank Boulevard San Antonio to Paseo del Norte

Fourth Issue—April 27, 2010

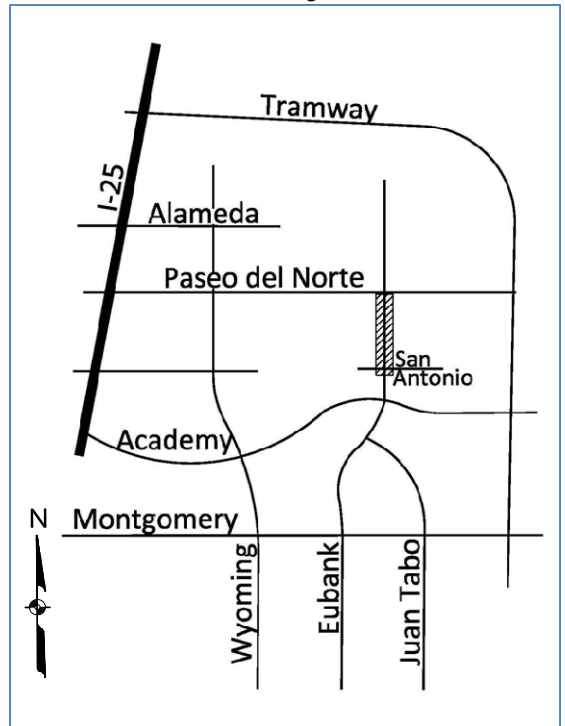

News on the

Eubank Boulevard Reconstruction Project

The project schedule has been modified slightly due to the pending certification of utilities and right-of-way by the NMDOT. Construction plans were completed in December of 2009, and all required right-of-way has been secured. The future projected milestone dates are:

- May, 2010—project to be advertised for bidding
- June, 2010—project awarded to contractor
- July, 2010—begin construction
- July 2011—end construction

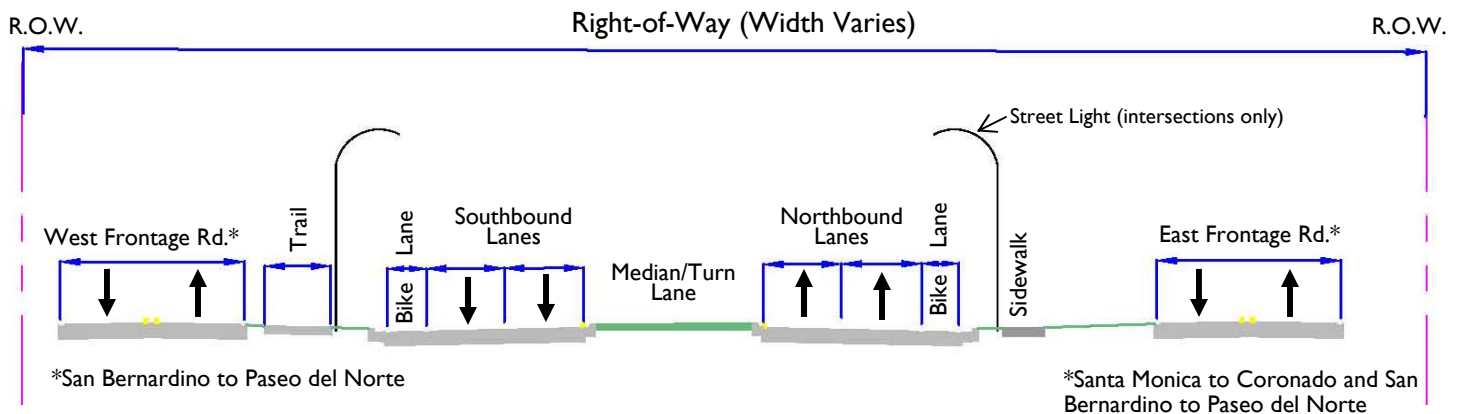

Project Location in Albuquerque/ Bernalillo County, New Mexico

What's New

Local utility providers are relocating their facilities in advance of the roadway construction, in order to expedite the roadway construction schedule and avoid utility disruptions. PNM and Comcast are substantially complete with their relocations, and Qwest and NM Gas Co. relocations are in progress. Additional utility relocation work will be required during construction.

Proposed Cross Section

Next Steps

The project is expected to be advertised to bid in May of 2010. Construction should begin in the summer of 2010. A third and final public information meeting will be held after the contractor is selected but before the beginning of construction, most likely in the summer of 2010.

Contact Information

If you have comments or questions about the Eubank Boulevard reconstruction project, please contact Lisa Manwill, P.E., project manager for the Bernalillo County Public Works Department, at 848-1512 or lmanwill@bernco.gov, or Karen Aspelin, P.E., public involvement task manager from Vector Engineering, at 341-9393, or please send an email to eubank@vectormm.com.
