Excavation Information

Traffic Control Plan must be approved 72 hrs. prior to any work in the County Right-of-Way

IMPORTANT:

The issuance of an excavation permit places upon the applicant an obligation to begin work at the site indicated upon the permit within **ten days** from the date the permit was issued. Should no work be started at the work site within the period, such permit shall be null and void, with no reimbursement of fees. The applicant shall obtain a new permit, including payment of required fees, before any work is started. After an excavation is commenced, the applicant must prosecute with diligence and expedition all excavation work covered by the excavation permit and must promptly complete work and restore the public place to its original condition or as near as can be, so as not to obstruct the public place or travel thereon more than reasonably necessary. The excavation shall be backfilled and tested three days after completion of work within the excavation, and the site shall be restored to its original condition within ten days after density tests are accepted. Should weather conditions prevent work completion, the additional time required by such conditions will be added to these days.

The road is:	<input type="checkbox"/> Paved <input type="checkbox"/> Unpaved	<input type="checkbox"/> Graveled	Number of Excavations:	Excavation Is for:	<input type="checkbox"/> Sewer Tap <input type="checkbox"/> Sewer Ext.	<input type="checkbox"/> Water Cut <input type="checkbox"/> Water Ext.	<input type="checkbox"/> New Service <input type="checkbox"/> Main Line Leak
