The issuance of a permit or a review or approval of plan specification, computation, and shop drawings, shall not be interpreted to be a permit for or an approval of any variance or violation of the provisions of any County or State Codes, ordinances, standards or policies. Nor shall such issuance of a permit or approval of plans, specification, computations, and shop drawing prevent any authorized COUNTY representative or COUNTY inspector from thereafter requiring the correction of errors in said plans, specification, computations, or shop drawings or from stopping construction operations which are being carried on there under when in violation of any COUNTY or STATE codes, ordinances, standards, or policies.
