## **Indoor Multi Use Sports Facility**

Bernalillo County seeks \$500,000 to plan, design, construct and equip an indoor multi sports facility, likely to be located at the Mesa del Sol Regional Recreation Complex. The facility would consist of large indoor arena area which could support multiple (12 or more) basketball courts, volleyball or other indoor gym sport courts. The complex would become a venue for tournament play for basketball, volley ball and other gym sports.

Phase 1 will consist of a planning process to identify programming and a proposed location for the complex at the County's regional facility at Mesa del Sol, as well as initial design and engineering of the facility.

Phase 2 will consist of construction of the initial phase of the facility, for which the County will be seeking additional funding in the 2017 session.

Funding of the project would enable the County to proceed with planning and design of the facility similar to the one depicted below (credit: Morehead State University).
