

Together We Can Stop Pedestrian Fatalities!

Did you know that some of the **highest pedestrian fatalities**, in Albuquerque and New Mexico, happen on Central Ave. between San Mateo and Wyoming?

We can make a change through the following solutions?

- Ensure that existing street lights work and add street lights where needed.
- All crosswalks should have clear striping & advance stop lines.
- Redesign main crossing at key intersections.
- Advocate for funding for a complete redesign of Central Ave. between San Mateo and Wyoming
- Redesign and expand bus stops for large peak flows and improve lighting.

We Want Safe Streets for Our Families and Community!

August 4 (Tuesday), 2015

Time: 8:00 pm to 9:00 pm

Where: Central Ave. and General Bradley St. NE
Just East of Wyoming

In recognition of National Night Out, on August 4th come out to learn more about these issues, recognize and honor those pedestrians who lost their lives, and how to promote solutions for health in all policies to stop pedestrian fatalities.
