April 17<sup>th</sup>, 2015

### Fog Sealing

Residents of:

PAA-KO Subdivision

The Bernalillo County Public Works Department has scheduled an asphalt emulsion pavement sealant treatment for your subdivision's roads on the follow schedule:

**Tuesday to Thursday April 21<sup>st</sup> – April 23<sup>rd</sup>, 2015**  
**Between 8:00 AM and 4:00 PM**

**(Note: We will reschedule in the event of heavy winds or rain!)**

Once the asphalt emulsion is applied it takes about two (2) hours to set-up (dry). You will not be able to cross the wet material during this time. We plan to treat half of each connector (through) road one side at a time. We will start on one half of each through road on the project. Once the material has set-up we will do the other half. We will also completely close cul-de-sacs and short dead-end roads to do each one's total area.

Please be advised that the material placed will stick to anything that it comes in contact with until it sets up. If the sealant gets on anything unintentionally, you will need solvents to remove it.

If you need to make special arrangements to cross the wet emulsion on the date/time the sealant is applied, please contact the main number for Road Maintenance at 848-1503 to have a message forwarded to me.

Thank you,

FOR  
Rick Wafer  
North Mountains District Road Maintenance Supervisor
