JANUARY 29, 2014
COUNTY PLANNING COMMISSION HEARING

1. Speaker Introductions
2. Neighborhood Outreach
3. Why Here? Why Now?
4. The Planned Communities Criteria
5. Economics
6. Sustainability & Land Use Framework
7. Santolina Land Use and Zoning
8. Conclusion
9. Next Steps
PROJECT DEVELOPMENT TEAM:

Garrett Development Corporation

Bohannan Huston Inc.

SEC Planning, LLC

Consensus Planning, Inc.

David Taussig & Associates
NEIGHBORHOOD OUTREACH

1. Santolina Level A Master Plan Public Open House

2. Meeting with the South Valley neighborhood and association leaders

3. Presentation and meeting with the Pajarito Village Neighborhood Association

4. Presentation to Cuidad Soil and Water Conservation District
WHY HERE? WHY NOW?

2035

MRCOG – REGIONAL LAND USE FORECAST

MTP 2035 Forecast
MRCOG Regional Land Use Data

WALH
TOP TEN REASONS TO MASTER PLAN

1. Plan for Growth, Not Piecemeal
2. Jobs/Economic Development
3. Balances Land Uses - Long Term
4. Protect the Natural Environment
5. Efficient Use of Resources - Systems Thinking
6. Quality Control - Sets Standards
7. Convenient Access to Daily Needs
8. Recreational Amenities - Parks, Trails, Complete Streets
9. Predictability Attracts Investment
10. Safety
**LEVEL A**
- 7,000 - 14,000 Acres (typ.)
- Arterial Roadways
- Open Space Network
- Village Areas/General Land Use
- Infrastructure System Planning

* Must be approved prior to Level B.

**LEVEL B**
- 500-3,000 Acres (typ.)
- Land Use/Zoning/Civic Uses
- Local/Collector Streets
- Parks
- Open Space/Trails
- Infrastructure Planning
- Preliminary Development Phasing

* Must be approved prior to Level C.

**LEVEL C**
- 1-100 Acres (typ.)
- Site Plan/Subdivision Plat
- Local Streets
- Lots and/or Building Footprint
- Height, Setbacks, FAR, etc.
- Final Infrastructure Plans

* Must be approved prior to construction.
PLANNED COMMUNITIES CRITERIA

Level A

Santolina Master Plan, Level A Development Agreement & PC Zoning

Approved by the Bernalillo County Commission

Level B

Village Master Plan, Community Center, Employment Center or Urban Center

Approved by the Bernalillo County Commission

Level B and Level C may be combined or processed concurrently

Level C

Subdivision, Site Development Plan

Approved by Bernalillo County Staff/CDRA

• Incorporated in 1985

• Public Finance and Urban Economics Consulting
  ➢ Specializing in infrastructure and public services finance
  ➢ 70%+ of Clients are public agencies

• Consulting services provided to virtually every urban county
  and major city in California, as well as dozens of public
  agencies in Texas, New Mexico, Washington, etc.

• Implemented over 1,500 public financing programs

• Performed over 450 fiscal and economic impact studies in
  multiple states

• Nathan Perez – Vice President, Attorney
  ➢ 100+ Fiscal/Economic Studies
WHAT IS A FISCAL IMPACT STUDY?

The August 22, 2013 Level A Santolina Fiscal & Economic Impact Study:

• Performed to satisfy the County's Planned Communities Criteria ("no net expense") and the economic model was done as an additional level of analysis beyond the required scope.

• Revenues minus Expenditures. Fiscal model reflects the estimated recurring annual deficit or surplus to the County's **General Fund** that will result from the development of the Project. This particular model also analyzes several Dedicated Funds.

• For every $1.00 incurred by the County in providing County services to the Project, the County will get at least $1.78 back in Project General Fund revenues ($2.47 including Dedicated Fund revenues).

• Current level of detail provided is likely indicative of a Level B or C Study.

• What the Fiscal Impact Study is **not** (at this time):
  - Not a County Budget document
  - Not a General Fund allocation strategy or department level budget analysis
  - Not a future facilities or services funding strategy
  - Can it incorporate some of these things: **YES**... in Level B and Level C.
The August 22, 2013 Level A Santolina Fiscal & Economic Impact Study:

- The Study also identifies the general economic impacts on the County in terms of employment, gross receipts, and earnings creation for residents and workers of the County and Project.

- Incorporates two stages of the development process: construction and operations. To conduct the economic impact analysis, DTA used Version 3 of the **IMPLAN** economic modeling system, the nationally accepted "gold standard," and operated under the assumption that each phase has three (3) economic effects:

  I. **Direct**: Caused by the additional output of goods and services from a specific land use.

  II. **Indirect**: Ripple effect among all of the industries whose outputs are used by the land use and its overall supply chain, e.g., *the buying and selling of goods and services by suppliers to the land uses analyzed.*

  III. **Induced**: Arise when employment increases in a region and stimulates greater *household spending.*

The August 22, 2013 Level A Santolina Fiscal & Economic Impact Study:

- Parks & Open Space: includes a debit of over $1,400,000 annually for Recreation (15-20% over current budget).

- Parks & Recreation also directly receives a cut of an Open Space Property Tax Mill Levy (0.10 Mills) – currently totaling approximately $1,300,000 annually. As applied to Santolina, this Mill Levy would generate an additional $320,000 annually.

- The Santolina Fiscal Impact Study already includes a debit of over $3,900,000 annually for Public Works/Fleet/Facilities/O&M (15-20%).

- County Public Works also directly receives a share of GRT revenues under the dedicated County Environmental Services Gross Receipts Tax (Sec. 78-43) - 1/8 of a cent. Approximately over $1MM per year.

- The Level A Fiscal Impact Analysis debits Santolina $5,300,000 for Public Works, Recreation, and similar. Also embedded within Santolina’s Net Impact are substantial GRT and Property Tax funds that will flow directly to the departments in question.

Simply put, the Santolina Master Plan will serve as an invaluable anchor for the Bernalillo County economy. As can be seen by the results of this Study, the Project will provide long term fiscal and economic benefits to the County, as well as local school districts, the University of New Mexico, the surrounding area, and the entire State of New Mexico.
Fiscal - "No Net Expense." And the Economic Impact Model was done as an additional layer of analysis beyond the required scope – and demonstrates: jobs, jobs, jobs.

Highly unlikely that the General Fund will ever be strained by the Project. County can afford new staff to service Project from Project revenues. Levels of Service maintained, if not exceeded.

The incredibly positive results are mostly due to two key factors (1) the scale of the Project, and (2) the tremendous amount of land dedicated to non-residential uses.

Santolina compares favorably while utilizing conservative assumptions. For example: (1) conservatively projected property values at buildout; as well as (2) utilizing Countywide GRT averages (assumes future non-residential is no more productive than existing County non-residential).

One-time/construction jobs will have an immediate and significant impact on the local economy, as this sector was one of the hardest hit by the Great Recession (i.e., construction, tradesmen, contractors, etc.).
QUESTIONS & ANSWERS
SUSTAINABILITY: Balances the needs of the present community with that of the future.
SUSTAINABILITY & LAND USE FRAMEWORK

[Diagram showing various aspects such as Economic, Social, Land Use, Transportation, Ecosystem, Water, Energy, leading to Systems Thinking and Sustainability]

VILLAGE CENTER (PROPOSED LOCATION)

NOTES
1) ACREAGE NUMBERS INCLUDE R.O.W. AND VILLAGE CENTERS.
2) ROADS ARE PRELIMINARY. INTERSTATE 40 INTERCHANGES AT 118TH STREET, ATRISCO VISTA, PASEO DEL VOLCAN, AND SHELLY ROAD AND FRONTAGE ROADS SHALL BE BY OTHERS.
3) BOUNDARIES BETWEEN USES ARE APPROXIMATE. FINAL PARCEL BOUNDARIES AND ACREAGE AMOUNTS WILL BE DETERMINED BY PLAT AND LEVEL B AND C PLANS.
4) VILLAGE, LAND USE, AND OPEN SPACE BOUNDARIES ARE APPROXIMATE AND WILL BE ADJUSTED AT LEVEL B AND C TO REFLECT ACTUAL LOCATIONS OF ROADWAYS, UTILITIES, EASEMENTS, DRAINAGE AND OTHER INFRASTRUCTURE.
SANTOLINA LEVEL A LAND USE

• Market Trends
• Community Design Principles
• Transportation System
• Phasing Strategy
SANTOLINA PLANNED COMMUNITIES ZONE

Components:

1) Land Use Districts - intent and broad permissive uses.

2) Site Characteristics - contextual development intensity. Character and intensity is based on street hierarchy.

3) Design Standards - contains the elements that will be customized within each Level B plan in order to create distinct places with unique character.
RESPONSE TO LAND USE AND ZONING COMMENTS

ZONING

• Additional permissive and conditional uses

• The Open Space Land Use District - combination of public and private open space.

• Density

• Zoning Framework
