This data is intended to detail our investment advisory activity as well as the activity of any client accounts managed by Public Trust Advisors, LLC (Public Trust). The custodian bank maintains the control of assets and executes and settles all investment transactions. The custodian statement is the official record of security and cash holdings transactions. Public Trust recognizes that clients may use these reports to facilitate record keeping; therefore it is recommended that the client reconcile this statement with their custodian bank statement. Many custodians use a settlement date basis which may result in the need to reconcile due to a timing difference. Please contact your relationship manager or call our toll free number 855-395-3954 with questions regarding your account.

Public Trust does not have the authority to withdraw funds from or deposit funds to the custodian. Our clients retain responsibility for their internal accounting policies; implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

Pricing sources from our reporting platform are provided by Clearwater Analytics®. Clearwater utilizes a hierarchical pricing model with multiple options for pricing sources. These options include custodial pricing, S&P Capital IQ and other sources. Since multiple pricing hierarchies are offered through Clearwater Analytics, and client preferences regarding pricing sources may differ, it is important to verify the specific pricing hierarchy for each portfolio. Securities with short maturities and infrequent secondary market trades are typically priced via mathematical calculations. The securities in this investment portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by Public Trust, the FDIC (except for certain non-negotiable certificates of deposit) or any government agency, unless otherwise specifically stated. Investing involves risk, including the possible loss of principal.

Past performance is not an indicator of future performance or results.

Public Trust statements present beginning and ending balances and are based on Market Value plus accrued interest on a Trade Date basis. Customized reports made available to the end user either from Public Trust or through the online reporting platform may present information and portfolio analytics using various optional methods including, but not limited to, historical cost, amortized cost, and market value. Custom reports may also differ from the information received from the custodian as a result of additional formulas and filters created based on end user preferences.
