

## MEDIA INFORMATION / PUBLIC INFORMATION WORKSHEET

Please email to PIO Larry Gallegos at [lagallegos@bernco.gov](mailto:lagallegos@bernco.gov) (505) 228-6668

1. Date/Incident number	06/09/17, #2017-009013
2. Incident Address	In Hondo Canyon, vicinity of 57 Arrowhead Tr.
3. Area of County	East Region, Dist. 40
4. Mutual Aid request/given	S.O. Metro 1 & 2
5. Reported by:	A hiker on the trail called in to say his wife was becoming sick, requested assistance.
6. Fire Condition/Alarms (working fire, 2 <sup>nd</sup> alarm)	N/A
7. Size & Type of Structure/Incident (apt/residential home/ bldg)	N/A
8. Number of Personnel Responded (Units and FFs)	6 personnel responded from Fire Dept.: Batt 7, E40, R40 & E46. Metro 2 with a crew of 4, plus fuel truck and trailer with 1. AAS #3055 remained at Sta. 40 with, waiting for pt.
9. Time Dispatched/1 <sup>st</sup> Unit Arrival time	Call received at 14:54, after call placed to Batt 7 dispatched at 15:01. First units on scene at 15:13.
10. Brief description of what 1 <sup>st</sup> unit on the scene saw.	N/A
11. Total time to bring fire under control	Total time for incident was 5 hr., 28 min.
12. Anyone inside at the time of the fire. If yes, how many	N/A
13. How was family alerted? (smoke detector, neighbors)	N/A
14. Injuries? If yes, include age, gender, transport info & injuries sustained.	
15. Fire Origin? Was it contained to origin?	N/A
16. Spread through %	N/A
17. Smoke Damage (light or heavy smoke damage throughout)	N/A
18. Cause (determined/undetermined -->accident,natural,incendiary)	N/A
19. Estimated Damages (structural, contents/vehicle)	N/A
20. Assisting Agencies like Red Cross, # of displaced?	BCSO, AAS
21. Contributing factors such as wind or location	N/A
22. Additional information (rescues, FF injuries and so on)	Batt 7 was alerted by Fire Control that a hiker called to say he was on a trail in Hondo Canyon when his wife began having medical problems. He was requesting assistance to help her out, a distance of 1-1/2 to 2 miles. E40 and R40 were dispatched to above location to begin operations to reach to the pt. and assist her out. Using a wheeled stokes basket they transported their EMS gear in with the intent on using the basket to bring the pt. out. Metro 1 was in the air, and contact was made with them to assist in locating the pt., which they accomplished. The Rescue crew went in and reported extremely rough and rocky conditions. Command was in frequent contact with the husband who reported his wife's condition was beginning to deteriorate. Command was informed that Metro 2 was available to fly an extraction mission to bring the pt. out, and they were launched. The Rescue crew continued in on foot,

	<p>eventually reaching the pt. Care was begun with IV fluids being administered. The pt. was stabilized and prepared for transport. After Metro 2 arrived in the area a BCFD PM was lowered to the ground, and pt. care was transferred to him. The pt. was placed in a “screamer suit”, hoisted to the aircraft, then flown to the East Mtn. Area Command Center at Sta. 40. The aircraft set down and pt. care was transferred to AAS, who transported her to UNMH in town. The aircraft then went back to pick up the flight PM who remained behind, also assisting in transporting out some of the ground crew EMS gear. The Rescue ground crew then made their way out on foot. It was reported that this may have been the first opportunity for a successful use of extraction of a pt. by combined BSCO/BCFD personnel.</p>
23. On Scene POC	N/A
24. Community Risk Reduction Message	N/A
25. Additional Information	None
