Cielo Vista Circle Park

Bernalillo County seeks \$75,000 to plan, design, construct, furnish, and equip a xeric neighborhood pocket park in the Sky Views Acres neighborhood. The funding would enable the development of a small neighborhood park in the Cielo Vista Neighborhood on west side of the Rio Grande in the unincorporated Bernalillo County.

Originally acquired by the County in the early 2000's, the site of the proposed park has been long identified as undeveloped park site (see aerial photo below). During the planning process for Bernalillo County's Parks Recreation and Open Space Master Plan (PROS Plan), residents in the Cielo Vista Neighborhood requested that a park finally be constructed on the site. Given its size and location in traffic circle, proposed amenities include a small shade structure, fencing, trees, landscaping, irrigation and neighborhood sign. Based on community input and analysis, the PROS Plan rated the park a "High" priority. The County Parks and Recreation department will work with the neighborhood association to finalize design, construction and maintenance of the park.

This request would enable the County to complete development of the park.
