BILL: _____

East Mountain High School Track

\$700,000 is requested to aid the East Mountain High School (EMHS) plan, design and construct an oval track and field track for their athletic programs. Bernalillo County and the high school have a shared use arrangement for the gymnasium at Vista Grande Community Center (outlined in yellow below) and wish to extend their cooperation on the future development of a track if legislative funds come to Bernalillo County for this purpose. EMHS is located next to Vista Grande Community Center. The EMHS Governing Council will be approaching adjacent land owners about the possibility of securing land, preferably to the east of the baseball fields, where the track could be located. There isn't enough space at the Vista Grande Community Center campus to add a track around the soccer field, so securing adjacent land is essential in order for EMHS to expand their athletic program to include track and field.
